

Dr. Jörg Schweiger is CEO and member of the Executive Board at DENIC, Germany's country-code top level domain operator managing .de. In this role, he is in charge of Information and Telecommunication Technology, Information Security, Research, Process and Product Management, Government & Regulatory Affairs, and Public Relations.

Jörg Schweiger regularly represents DENIC at international organisations, associations and conferences, such as NETmundial (www.netmundial.br), IGF (Internet Governance Forum, www.intgovforum.org), or EuroDIG (European Dialogue on Internet Governance (www.eurodig.org)). Within the Steering Committee of Germany's national Internet Governance Forum (IGF-D, <http://www.intgovforum-deutschland.org>), he is among the technical community representatives.

In addition, Jörg Schweiger is actively involved in the multistakeholder process at the Internet Corporation for Assigned Names and Numbers (ICANN, www.icann.org), where he was the ccNSO representative within ICANN's Nominating Committee (NomCom), from 2015 to 2017. Earlier, he was involved as an observer to the Cross Community Working Group to Develop an IANA Stewardship Transition Proposal on Naming Related Functions (CWG IST) (2014/2015), Co-chair of the Joint DSSA (DNS Security and Stability Analysis) Working Group) (2011/2012), and Chair of the ccNSO Incident Response Working Group (2009/2010).

Since February 2016, Jörg Schweiger also chairs the Board of Directors of CENTR, the Council of European National Top-Level Domain Registries (www.centri.org). He further represents DENIC as an associated member at the regional TLD umbrella organisations APTLD (Asia Pacific Top Level Domain Association, www.aptd.org) and LACTLD (Latin American and Caribbean Top Level Domain Association, www.lactld.org).

Jörg Schweiger holds a graduate diploma and a doctoral degree in computer science.
